

NatureWax® Comparison Guide

NatureWax® is a comprehensive line of vegetable-based wax blends used by premium candle makers. Produced from refined vegetable oils, versatile and abundantly available, it is a great alternative to paraffin wax. NatureWax offers eco-conscious consumers the peace of mind while delivering superior performance and technology to the market.

Key Benefits

- High quality, superior performance
- Increased fragrance loading
- Exhibits better glass appearance
- Made from renewable vegetable sources
- Reliable supply chain & sourcing

Container Blends

- C-1** Soy/palm blend with high quality, and economical pricing
- C-3** Our most popular blend for all types of container candles, 100% soy-based
- C-6** Robust soy/coconut blend provides superior texture & glass adhesion
- Elite-200** Premium soy/palm blend for one-pour performance, and high fragrance loading

Pillar Blend

- Elite-300** Robust blend for smooth & textured finishes, high fragrance & dye capability

Base Blends & Additives

- S-113** Low-med melt base soy wax
- S-130** Med-high melt base soy wax blend
- ST-130** Med-high melt soy base wax
- P-110** Low melt palm base wax
- P-130** Med-high melt palm base wax
- Coconut 1** Additive to increase oily/creamy texture
- Coconut 2** Low melt blend for good adhesion

	NatureWax®	Botanical Origin	Form	Melt Point (F)	Needle Penetration	Congeval Point (F)	Color (Lovibond)
